SECURITIES AND EXCHANGE COMMISSION
Washington, D.C. 20549

FORM 8-K

CURRENT REPORT

Pursuant to Section 13 OR 15(d) of the Securities Exchange Act of 1934

Date of Report (Date of earliest event reported): October 7, 2021

Emmaus Life Sciences, Inc.

(Exact name of registrant as specified in its charter)

Delaware	001-35527	87-0419387
(State or other jurisdiction of incorporation)	(Commission File Number)	(I.R.S. Employer Identification No.)
21250 Hawthorne Boulevard, Suite 800, Torrance, CA		90503
(Address of principal executive offices)		(Zip Code)

Registrant's telephone number, including area code (310) 214-0065

(Former name or former address, if changed, since last report.)

Check the appropriate box below if the Form 8-K filing is intended to simultaneously satisfy the filing obligation of the registrant under any of the following provisions:

- Written communications pursuant to Rule 425 under the Securities Act (17 CFR 230.425)
- Soliciting material pursuant to Rule 14a-12 under the Exchange Act (17 CFR 240.14a-12)
- Pre-commencement communications pursuant to Rule 14d-2(b) under the Exchange Act (17 CFR 240.14d-2(b))
- Pre-commencement communications pursuant to Rule 13e-4(c) under the Exchange Act (17 CFR 240.13a-4(c))

Securities registered pursuant to Section 12(b) of the Act:

Title of each class	Trading Symbol	Name of each exchange on which registered
None		

Indicate by check mark whether the registrant is an emerging growth company as defined in Rule 405 of the Securities Act of 1933 (§230.405 of this chapter) or Rule 12b-2 of the Securities Exchange Act of 1934 (§240.12b-2 of this chapter).

Emerging growth company

If an emerging growth company, indicate by check mark if the registrant has elected not to use the extended transition period for complying with any new or revised financial accounting standards provided pursuant to Section 13(a) of the Exchange Act.

Item 1.01. Entry into a Material Definitive Agreement

On October 7, 2021, Emmaus Life Sciences, Inc. ("we," "us," "our," "Emmaus" or the "company") entered into a License Agreement, effective as of October 6, 2021, with Kainos Medicine, Inc., a South Korean corporation ("Kainos"), under which Kainos has granted us an exclusive license in the territory encompassing the U.S., the U.K. and the EU to patent rights, know-how and other intellectual property relating to Kainos's novel IRAK4 inhibitor, referred to as KM10544, for the treatment of cancers, including leukemia, lymphoma and solid tumor cancers. In consideration of the license, we have agreed in the License Agreement to pay Kainos a six-figure upfront fee in cash, cash payments upon the achievement of specified milestones totaling in the mid-eight figures, a single-digit percentage royalty based on net sales of the licensed products and a similar percentage of any sublicensing consideration.

The License Agreement will continue on a licensed product-by-licensed product and country-by-country basis until the last to expire valid claim of any licensed patent in such country.

On October 12, 2021, we issued a press release regarding the License Agreement, a copy of which is included as Exhibit 99.1 to this Current Report and incorporated herein by reference.

Item 9.01 Financial Statements and Exhibits

(d) Exhibits

See the accompanying Index to Exhibits, which information is incorporated herein by reference.

Pursuant to the requirements of the Securities Exchange Act of 1934, the registrant has duly caused this report to be signed on its behalf by the undersigned hereunto duly authorized.

Date: October 12, 2021

Emmaus Life Sciences Acquires Key Intellectual Property Rights to Novel IRAK4 Inhibitor From Kainos Medicine

Agreement Expands on the Companies' Collaboration for the Preclinical Development of Potential Anti-Cancer Therapies

TORRANCE, Calif., October 12, 2021- **Emmaus Life Sciences, Inc. (OTCQX: EMMA)** a commercial-stage biopharmaceutical company and leader in the treatment of sickle cell disease, today announced the signing of an agreement with Kainos Medicine, Inc. (Kainos), granting Emmaus an exclusive license to patent rights, know-how and other intellectual property relating to Kainos' novel IRAK4 inhibitor, referred to as KM10544, for the treatment of cancers including leukemia, lymphoma and solid tumors. The license agreement expands upon the existing research and development collaboration agreement between the parties. Financial details of the agreement were not disclosed.

Emmaus intends to advance the licensed technology to complete *in-vivo* studies to determine disease selection for KM10544 which, if successful, would be followed by Investigational New Drug enabling studies. Emmaus also plans to seek Orphan Drug Designation for relevant clinical indications.

"Obtaining the exclusive license to the intellectual property surrounding Kainos' IRAK4 inhibitor is an important milestone as we expand our pipeline with a novel potential treatment option for some of the most resilient lymphomas in the world," stated Yutaka Niihara, M.D., M.P.H., Chairman and Chief Executive Officer of Emmaus. "The KM10544 IRAK4 inhibitor has the potential to treat malignancies such as Waldenström's Macroglobulinemia with MYD88 mutation and others. We look forward to furthering the development of this exciting compound and are grateful for our continuing collaboration with the Kainos team."

Kisub Lee, Chairman and Chief Executive Officer of Kainos, added, "We have devoted significant efforts to bring KM10544 to its current stage and we are confident that Emmaus' drug development expertise will allow the company to continue to progress this important program through the clinic."

IRAK4 (interleukin-1 receptor-associated kinase 4) is a serine-threonine protein kinase made up of 460 amino acids that is a key messenger in signaling initiated by TLR/IL-1R (toll-like receptor/interleukin-1 receptor). It is known to be present and active in the occurrence of certain immunity responses, inflammation disorders and various cancers with myeloid differentiation factor 88 (MYD88) mutation.

About Kainos Medicine

Kainos Medicine, Inc., based in South Korea, is a clinical-stage company that specializes in the research and development of innovative medicines for brain diseases, cancers and infectious diseases, led by researchers who have years of experience and success in new drug discovery and development and an executive team that has experience with NASDAQ-listed companies. Kainos receives specialized counsel on product selection, evaluation and external licensing deals from advisory boards and business development consultants who have skills and significant experience in global drug development.
